

GRADE 3 ELA

English Language Arts/Literacy Assessment Report, 2016–2017

This report shows whether FIRSTNAME met grade-level expectations and is on track for the next grade level. **This assessment is just one measure of how well your child is performing academically.**

To learn more about the test and to view sample questions and practice tests, visit UnderstandTheScore.org.

How Can You Use This Report?

Ask your child's teachers:

- What do you see as my child's academic strengths and areas for improvement?
- How will you use these test results to help my child make progress this school year?

See side 2 of this report for specific information on your child's performance in reading and writing.

How Did FIRSTNAME Perform Overall?

Performance Level 3

- Level 5** Exceeded Expectations
- Level 4** Met Expectations
- Level 3** Approached Expectations
- Level 2** Partially Met Expectations
- Level 1** Did Not Yet Meet Expectations

745

How Students in Maryland Performed

How Did Your Child Perform in Reading and Writing?

READING

↑ LITERARY TEXT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by showing they can read and analyze fiction, drama, and poetry.

↔ INFORMATIONAL TEXT

Your child performed about the same as students who **approached expectations**. Students meet expectations by showing they can read and analyze nonfiction, history, science, and the arts.

↓ VOCABULARY

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by showing they can use context to determine what words and phrases mean.

WRITING

↑ WRITING EXPRESSION

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by showing they can compose well-developed writing, using details from what they have read.

↔ KNOWLEDGE AND USE OF LANGUAGE CONVENTIONS

Your child performed about the same as students who **approached expectations**. Students meet expectations by showing they can compose writing using rules of standard English.

LEGEND

Your child performed about the same as students who:

What are the PARCC tests? The tests measure how well students have learned grade-level material in English language arts/literacy and mathematics. Students who meet or exceed expectations are on track for the next grade or course and, ultimately, for college and careers. The tests include questions that measure your child's fundamental skills and knowledge, and require students to think critically, solve problems, and support or explain their answers. The test is one of several ways to help parents and teachers understand how well children are learning.

How are test results used? Results from the test give your child's teacher, school, and school district information about his/her academic performance, and provide you with some insight on how your child is meeting expectations. These results never stand alone, but should be used with other tests and class work when gauging student performance.

Learn more about PARCC and Maryland's college- and career-ready standards

Explore your school website, or ask your principal, for information on your school's annual PARCC assessment schedule; the curriculum chosen by your district to give students more hands-on learning experiences that meet state standards; and to learn more about how test results contribute to school improvements. You can also learn more about Maryland's K-12 standards at <http://mdk12.msde.maryland.gov/instruction/commoncore/>.

For information on how to help your child, and access to actual PARCC test questions and the GreatKids Test Guide for Parents, visit UnderstandTheScore.org.

How Did Your Child Perform in Areas of Mathematics?

MAJOR CONTENT

Your child performed about the same as students who **approached expectations**. Students meet expectations by solving problems involving multiplication and division, area, measurement, and basic fraction understanding.

EXPRESSING MATHEMATICAL REASONING

Your child performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving perimeter, place value, geometric shapes, and representations of data.

MODELING & APPLICATION

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.

LEGEND

Your child performed about the same as students who:

Met or Exceeded Expectations

Approached Expectations

Did Not Yet Meet or Partially Met Expectations

What are the PARCC tests? The tests measure how well students have learned grade-level material in English language arts/literacy and mathematics. Students who meet or exceed expectations are on track for the next grade or course and, ultimately, for college and careers. The tests include questions that measure your child's fundamental skills and knowledge, and require students to think critically, solve problems, and support or explain their answers. The test is one of several ways to help parents and teachers understand how well children are learning.

How are test results used? Results from the test give your child's teacher, school, and school district information about his/her academic performance, and provide you with some insight on how your child is meeting expectations. These results never stand alone, but should be used with other tests and class work when gauging student performance.

Learn more about PARCC and Maryland's college- and career-ready standards

Explore your school website, or ask your principal, for information on your school's annual PARCC assessment schedule; the curriculum chosen by your district to give students more hands-on learning experiences that meet state standards; and to learn more about how test results contribute to school improvements. You can also learn more about Maryland's K-12 standards at <http://mdk12.msde.maryland.gov/instruction/commoncore/>.

For information on how to help your child, and access to actual PARCC test questions and the GreatKids Test Guide for Parents, visit UnderstandTheScore.org.

GRADE 4 MATH

Mathematics Assessment Report, 2016–2017

This report shows whether FIRSTNAME met grade-level expectations and is on track for the next grade level. **This assessment is just one measure of how well your child is performing academically.**

To learn more about the test and to view sample questions and practice tests, visit UnderstandTheScore.org.

How Can You Use This Report?

Ask your child's teachers:

- What do you see as my child's academic strengths and areas for improvement?
- How will you use these test results to help my child make progress this school year?

See side 2 of this report for specific information on your child's performance in mathematics.

How Did FIRSTNAME Perform Overall?

Performance Level 3

- Level 5** Exceeded Expectations
- Level 4** Met Expectations
- Level 3** Approached Expectations
- Level 2** Partially Met Expectations
- Level 1** Did Not Yet Meet Expectations

Your child's score

739

How Students in Maryland Performed

Student Growth Percentile

Your child's score this year is the same as or better than 43 percent of Maryland students who had a similar score to your child on the assessment in a previous year(s).

How Did Your Child Perform in Areas of Mathematics?

MAJOR CONTENT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving addition, subtraction, multiplication and division, place value, fraction comparisons, and addition and subtraction of fractions with same denominators.

EXPRESSING MATHEMATICAL REASONING

Your child performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your child performed about the same as students who **approached expectations**. Students meet expectations by solving problems involving number and shape patterns, simple measurement conversions, angle measurements, geometric shapes classification, and representations of data.

MODELING & APPLICATION

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.

LEGEND

Students who meet or exceed expectations are on track for the next grade or course and, ultimately, for college and careers. The tests include questions that measure your child's fundamental skills and knowledge, and require students to think critically, solve problems, and support or explain their answers. The test is one of several ways to help parents and teachers understand how well children are learning.

How are test results used? Results from the test give your child's teacher, school, and school district information about his/her academic performance, and provide you with some insight on how your child is meeting expectations. These results never stand alone, but should be used with other tests and class work when gauging student performance.

Learn more about PARCC and Maryland's college- and career-ready standards

Explore your school website, or ask your principal, for information on your school's annual PARCC assessment schedule; the curriculum chosen by your district to give students more hands-on learning experiences that meet state standards; and to learn more about how test results contribute to school improvements. You can also learn more about Maryland's K-12 standards at <http://mdk12.msde.maryland.gov/instruction/commoncore/>.

INTEGRATED MATHEMATICS II

Mathematics Assessment Report, 2016–2017

This report shows whether FIRSTNAME met course-level expectations and is on track to be college and career ready. **This assessment is just one measure of how well your child is performing academically.**

To learn more about the test and to view sample questions and practice tests, visit UnderstandTheScore.org.

How Can You Use This Report?

Ask your child’s teachers:

- What do you see as my child’s academic strengths and areas for improvement?
- How will you use these test results to help my child make progress this school year?

See side 2 of this report for specific information on your child’s performance in mathematics.

How Did FIRSTNAME Perform Overall?

Performance Level 2

- Level 5** Exceeded Expectations
- Level 4** Met Expectations
- Level 3** Approached Expectations
- Level 2** Partially Met Expectations
- Level 1** Did Not Yet Meet Expectations

Your child’s score
712

10

How Students in Maryland Performed

Student Growth Percentile

Your child’s score this year is the same as or better than 43 percent of Maryland students who had a similar score to your child on the assessment in a previous year(s).

How Did Your Child Perform in Areas of Mathematics?

MAJOR CONTENT

Your child performed about the same as students who **approached expectations**. Students meet expectations by solving problems involving arithmetic operations on polynomials, rational exponents, quadratic and exponential expressions and equations, interpreting functions, transformations on shapes, right triangles, and trigonometry.

EXPRESSING MATHEMATICAL REASONING

Your child performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving the complex number system, systems of equations, quadratic and exponential functions, representing data, volume, and probability.

MODELING & APPLICATION

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.

LEGEND

Your child performed about the same as students who:

Met or Exceeded Expectations

Approached Expectations

Did Not Yet Meet or Partially Met Expectations

What are the PARCC tests? The tests measure how well students have learned grade-level material in English language arts/literacy and mathematics. Students who meet or exceed expectations are on track for the next grade or course and, ultimately, for college and careers. The tests include questions that measure your child's fundamental skills and knowledge, and require students to think critically, solve problems, and support or explain their answers. The test is one of several ways to help parents and teachers understand how well children are learning.

How are test results used? Results from the test give your child's teacher, school, and school district information about his/her academic performance, and provide you with some insight on how your child is meeting expectations. These results never stand alone, but should be used with other tests and class work when gauging student performance.

How Did Your Child Perform in Areas of Mathematics?

MAJOR CONTENT

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving problems involving polynomial and rational expressions and equations, exponential and radical equations, graphs of functions, coordinate geometry, applications of geometric concepts in modeling situations, and making inferences and justifying conclusions from data.

EXPRESSING MATHEMATICAL REASONING

Your child performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving polynomial identities, rational expressions and functions, trigonometric functions, geometric constructions, circles, representing data, and statistics.

MODELING & APPLICATION

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.

Student Growth Percentile

Your child’s score this year is the same as or better than 16 percent of Maryland students who had a similar score to your child on the assessment in a previous year(s).

How Did Your Child Perform in Areas of Mathematics?

MAJOR CONTENT

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving problems involving arithmetic operations on polynomials, linear, quadratic, and exponential equations, an understanding of functions, and interpreting algebraic expressions, functions, and linear models.

EXPRESSING MATHEMATICAL REASONING

Your child performed about the same as students who **approached expectations**. Students meet expectations by creating and justifying logical mathematical solutions and analyzing and correcting the reasoning of others.

ADDITIONAL & SUPPORTING CONTENT

Your child performed about the same as students who **met or exceeded expectations**. Students meet expectations by solving problems involving properties of rational and irrational numbers, writing algebraic expressions in equivalent forms, systems of equations, interpreting data, and linear, quadratic, and exponential models.

MODELING & APPLICATION

Your child performed about the same as students who **did not yet meet or partially met expectations**. Students meet expectations by solving real-world problems, representing and solving problems with symbols, reasoning quantitatively, and strategically using appropriate tools.
